Designing Livable Luxury

Get ready to be pleasantly surprised if you partner with Michele Plachter. As a designer who thrives in bringing a fresh approach to all of her diverse projects, she focuses on creating warm, sophisticated and completely livable spaces.

“I love to incorporate the unexpected into our designs. This is what really fosters and encourages a relaxing and welcoming atmosphere,” says Michele. Whether she’s designing a space for empty nesters or a young, active family, Michele sees each space as a canvas where memories will be made.

From custom furnishing options, space plans and installation, she works to incorporate designs and fabrics that deliver sophisticated functionality to interior spaces. “Some of my most successful projects occur when clients allow me to guide them beyond their comfort zones and take calculated design risks that produce one-of-a-kind spaces,” says Michele. “It’s no fun to play by the rules.”
